Exterior Paint Colors (taken from the ARC Committee Guidelines)

An ARC Request Form in duplicate, with attached color chip(s) must be submitted for **ALL exterior painting**. When submitting a request form for an existing color, attach a color chip to both forms that matches the color name, number and paint company. No existing color will be approved without the above. If a color you choose is not a match but is very close to a color on the approved list, then it may be deemed acceptable. Approved colors are available from your representative, as well ACE hardware in the Green Valley Village has our Green Valley Fairways approved colors at the paint counter.

If you want to submit a colors **not** on the approved list it will require a 2 ft. x 2 ft. color sample painted on a sunny wall of the home, **or** a 2 ft. x 2 ft. painted sample to be given to the ARC representative with the request form. (ARC's reasoning is that color chips viewed in an indoor setting will not look the same in the sunlight, and small color samples can be difficult to accurately judge.) ARC representatives will visit the home to view the large sample. If approved, the color will forwarded to the Board of Directors for final approval. Once approved, it will be added to the approved color list. This was implemented so homeowners can help build the color pallet.
